1	Mr. Briggs, IG 6E-08 Hqs			<p>Chuck:</p> <p>Attached is a copy of a document which surfaced in the course of our review of the lack of classification for the most recently published Information Science Catalog. The DDA requested us to make such a review based upon his phone conversation with you.</p> <p>When I took a second look at the catalog, one area of concern to me was that part which dealt with CAMS. As you can see from the attached, the subject clearly is considered to be unclassified by those most immediately involved. It is still bothersome to me, and I believe some sort of control indicator is warranted. "Internal Use Only" really doesn't serve the purpose in this instance since so many of the papers involved are going from agency to agency and are not controlled exclusively within any one agency.</p> <p>I believe the problem is bigger than the ISC Catalog or CAMS. There seems to be a lot of material that should be kept "proprietary" but it does not meet the standards for classification. Maybe a new indicator having the same impact as the old "For Official Use Only" is what is called for. I would suggest that the appropriate offices in the Agency be tasked with looking into this problem.</p> <p>/s/ </p> <p>cc: DDA</p>

FROM: [redacted]

Chief, CAMS Management Branch, PTO

SUBJECT:

Publicity for the CAMS Language
and Functions Class

1. We have reviewed your two page draft bulletin publicizing the CAMS Language and Functions Course. As we have already advised you by phone, we feel that "CIA" should precede the references to "Information Science Center" and "Office of Training" on page 1. This is our only suggested change.

2. Attached is a list of contacts in the various community agencies, to whom you should send schedules and other materials publicizing the CAMS courses. Some agencies and/or CIA components have furnished their mailing addresses; others wish to be notified through the weekly ICRS meeting, held here at CIA Headquarters. For all those choosing the ICRS meeting as their point of contact, please send the appropriate number of copies to [redacted] of my staff, who will deliver them to the meeting.

3. Lastly, we have just recently received formal approval from the Executive Secretary, COMIREX, to implement the various changes to CAMS Training on which we have mutually agreed. We look forward to working with you under the new arrangements. We are especially grateful for your assumption of the Registration task. In that connection we would like to remain in contact with the ISC Registrar as people are applying, so we can express our priorities for the various candidates if the classes are fully subscribed.
